

Test Out

Romulus High School students are allowed the opportunity to “test out” of high school courses to provide class schedule space for more class options throughout his/her educational career. Please be advised that “testing out” of a class does not permit students to graduate before the completion of four school calendar years. If you are interested in this option, *first* review the following test out guidelines:

- Students may not “test out” of a class in which they have already attended.
- Students may not “test out” of a yearlong class mid-tri.
- “Testing out” will allow students to earn .5 credit.
- “Testing out” means that the student has successfully passed the final exam (C+ minimum) for a class that they wish to test out of.
- If the student is successful, a non-letter grade (pass/fail) will be added to their transcript. The pass/fail grade will not be averaged into the students’ GPA.
